I agree! Luciano seemed shocked when I asked if he had talked to anyone else about this and then offended by my request that he talk to Mark when he said he had not mentioned it to anyone....

I think this is a bad idea for several reasons. Rachel is going to connect with Mark.

Luciano just called and asked how we could set up a registration/payment web form to charge the public for some open seats that need to be filled for the event this weekend. He was thinking of charging \$15-20/person and wants to know how we can accomplish that. I suggested he get confirmation from the Board Office (Mark) that this approach is OK and that I would check into what options there are to create the registration/payment form.
